I endeavor to work with people who care about their future, using my expertise to help them achieve their financial goals. My goal is to demonstrate my client-centeredness through actions and deeds.

The reason most people don't have money saved isn't because they haven't made enough money, but because they never got in the habit of saving money. My job consists of helping people save and educating them as to their options to save, while taking into consideration their budget, risk tolerance, and time horizon for their goals.

My goal is to effectively have clients manage risk and then save to meet future goals such as buying a house, college education, and retirement.

Mission Statement
At uFinancial Group, we act with integrity and compassion, and use our resources and expertise to build relationships that work towards positive growth and financial security for our clients and their loved ones. We are educators of our communities, helping people discover and achieve their personal and financial dreams.
